

# Healthy Veterans Needed for a Research Study at the James J. Peters VA Medical Center in the Bronx, NY

We are conducting a research study to understand brain structure and mental health in Veterans at risk of suicide

Healthy Veterans are needed as a comparison group in this research study

## What is involved?

Attending visits at the James J. Peters VA Medical Center in the Bronx, NY and Icahn School of Medicine at Mount Sinai in NYC

**First Visit:** Mental health assessments, questionnaires, non-invasive (MRI) brain scan, and blood draw

**6- and 12-Month Follow-Up:**  
Review of mental health assessments

- No cost to participate
- Transportation may be provided

**U.S. Military Veterans** between the ages of 18 to 65 may be eligible to participate if they do not have major medical or mental health disorders.

## Why participate?

- Increase our understanding of Veteran suicide
- Share experiences so that other Veterans may benefit
- Receive up to \$825 for your time
